

# ACTRONCONNECT

CHANGING THE GAME  
WITH WIRELESS CONTROL

**ActronAir**<sup>®</sup>

Australian for air conditioning<sup>™</sup>

# ActronConnect. Changing the game with advanced technology.

At ActronAir, we're focused on one thing. Your comfort! That's why we've developed ActronConnect. Now you can wirelessly control your ActronAir ducted air conditioner whether at home or away.

It's yet another example of how ActronAir is changing the game with advanced technology and gives you total control 24/7.

## Power Button

Turns air conditioner on/off.

## System Status

Indicator displays whether the system is currently 'heating' or 'cooling.'

## Dynamic Colour Display

Cool = Blue, Heat = Red, Fan Only = Green, Auto = Purple.

## Current Temperature

## User Set Temperature

## Arrow Buttons

Press to set the temperature up or down.

## Mode Settings

Cool, Heat, Fan and Auto modes.

## Fan Speed

Select between three fan speeds.

## ESP Indicator\*

If enabled, ESP logo will light up.

## Menu

Explore your ActronConnect

-  Home - Control your air conditioner
-  Zones - View your zones
-  Timer - Control on/off
-  Settings - Account & network settings
-  Info - Additional info & Help

# ActronConnect. Much more than simply cooling or heating.

## Zones

Viewing the zones in your home.

### Rename Button

Select or customise the zone labels in your home.

### Zone on/off Button

### ESP Ultima Display

Only available with ESP Ultima and ESP Platinum Ultima models. Displays temperature of the zone.

*Why waste energy air conditioning the whole house? Simply access ActronConnect's 'Zones' function and select the zones you want on or off.*

*Heating mode. There's no need to go home to a cold house in Winter. With ActronConnect your home will be warm and cosy from the moment you walk through the door.*

*Automatically heat or cool with the set and forget Auto function.*

*On some days you may want 'Fan Only' to improve comfort with air circulation to further minimise your power bill.*

# Complete control when you're at home or away.

Turn your air conditioner on or off, change temperatures, turn zones on or off, adjust fan speeds. When you're at home, ActronConnect is like a remote control.

For example, while sitting downstairs watching TV you can turn on the air conditioning in an upstairs bedroom – making it the perfect temperature for when you go up to sleep.

On a cold winter morning you can warm your home before getting out of bed, and you can check the temperature\* in a child's bedroom without disturbing them. Once you start using ActronConnect, comfort will always be at hand!

You can now also control your air conditioner from most web browsers (PC or mobile).

## ActronConnect Module

- Long range antenna provides extended wi-fi range.
- Discreetly installed in your roof space.

## How ActronConnect works. Advanced technology makes it possible.

*\*With ESP Ultima models.*

# Make your home comfortable before you get there.

Whether it's a cold winter night or a hot summer day, now you can make your home or office the perfect temperature before you even get there.

ActronConnect gives you total control of your ActronAir ducted air conditioner whether you're at the footy, the beach, or just about anywhere you get mobile internet connectivity. It also allows you to check indoor temperatures remotely and comes in very handy if you ever forget to turn your air conditioning off!
