

Save a bunch on energy costs this season

Did you know you could SAVE up to 40% on your energy bills?

Call today for an obligation-free chat about our many energy efficient products and services, including:

- Energy Audits to reveal potential savings
- Plant Re-engineering for economy, or major upgrades
- Winery Brine Refrigeration
- Specialised Process Cooling Applications
- Our purpose-built Brichil chillers which are trusted by leading winemakers everywhere

Clements Refrigeration has been actively involved in the wine industry for 30 years, so we know a little about wine... but we know a lot more about helping winemakers significantly reduce their energy bills.

Clements Refrigeration has been actively involved in the wine industry for 30 years.

Call to find out more about our energy efficient products and services.
